

Interim Regulations Governing Establishment of a Repository for Induced Pluripotent Stem
Cells and Embryonic Stem Cells

EFFECTIVE DECEMBER 1, 2012

1.0 Preface

This interim regulation governs awards made under the three Requests For Application (RFA) Numbers 12-02, 12-03 and 12-04 that CIRM issued for the generation, banking and distribution of comprehensive collections of disease specific human induced pluripotent stem cells (hiPSC). These lines will serve as valuable tools in drug discovery and will be available to researchers worldwide.

2.0 Definitions

- 2.1 hiPSC Repository** – The repository established pursuant to Request For Application 12-04.
- 2.2 hiPSC Repository RFAs** – Request For Application Numbers 12-02, 12-03 and 12-04 which provided funding for the creation of disease specific human induced pluripotent stem cells and a repository and distribution center for storing such cell lines.
- 2.2** All other capitalized and undefined terms shall have the meanings as set forth in CIRM's Intellectual Property and Revenue Sharing for Non-Profit and For Profit Grantee regulations and CIRM's Grants Administration Policy regulations.

3.0 Application of Intellectual Property and Revenue Sharing Regulations for Non-Profit and For Profit Grantees

- 3.1** Awards made pursuant to the hiPSC Bank RFAs are exempt from CIRM's entire Intellectual Property and Revenue Sharing for Non-Profit and For Profit Grantees regulations.

4.0 Application of Grant Administration Policy Regulations

- 4.1** CIRM's Grant Administration Policy regulations apply, in all respects, to awards made pursuant to the hiPSC Bank RFAs.

5.0 Application of The Scientific and Medical Accountability Standards

- 5.1** CIRM's Scientific and Medical Accountability Standards apply in all respects to awards made pursuant to the hiPSC Bank RFAs.

6.0 Ownership of Intellectual Property and Materials

6.1 Background intellectual property: All intellectual property of Grantees, Collaborators, and their subcontractors owned prior to engaging in the activities set forth in the hiPSC Repository RFAs shall remain the intellectual property of the Grantees, Collaborators and their subcontractors. CIRM shall have no rights to pre-existing intellectual property.

6.2 Ownership of the hiPSC lines: CIRM shall own all hiPSC lines generated pursuant to the hiPSC Repository RFAs and shall retain all rights of such ownership including but not limited to rights to license or otherwise transfer.

7.0 Revenue Sharing

7.1 CIRM may negotiate revenue sharing provisions with the hiPSC Repository taking into account the interest in ensuring that the hiPSC Repository becomes self sustaining.

8.0 Publication

8.1 A researcher using a cell line obtained from the hiPSC Repository which was derived in whole or in part using CIRM funding shall, in any written publication and oral presentation, acknowledge CIRM's funding and identify by name the hiPSC Repository.
